

This is my *first* document prepared in L^AT_EX.

We have seen that to typeset something in L^AT_EX, we type in the text to be typeset together with some L^AT_EX commands. Words must be separated by spaces (does not matter how many) and lines may be broken arbitrarily.

The end of a paragraph is specified by a *blank line* in the input. In other words, whenever you want to start a new paragraph, just leave a blank line and proceed.

Carrots are good for your eyes, since they contain Vitamin A. Have you ever seen a rabbit wearing glasses?

The numbers 1, 2, 3, etc. are called natural numbers. According to Kronecker, they were made by God; all else being the works of Man.

I think L^AT_EX is fun.

I think L^AT_EX is fun.

Note the difference in right and left quotes in ‘single quotes’ and “double quotes”.

Note the difference in right and left quotes in ‘single quotes’ and “double quotes”.

Note the difference in right and left quotes in ‘single quotes’ and “double quotes”.

X-rays are discussed in pages 221–225 of Volume 3—the volume on the electromagnetic waves.
